

# Alexandria Walker | Frontend Developer

Baltimore, MD 21236 | walkernalex@gmail.com | 813-404-6018 | [Portfolio](#) | [LinkedIn](#)

## PROJECTS

[Mental Health Dashboard](#): Built an interactive dashboard to visualize mental health resources and data trends.

Tools used: API Integration, Chart.js

[Untangled \(Decision-Making App\)](#): Developed a React-based web app that provides personalized activity suggestions based on user input.

Tools used: React, CSS, LocalStorage

## WORK EXPERIENCE

### Digital Content & Strategy Manager

Washington, DC

[Culture ONE World](#)

2022 - 2025

- Audited digital content for WCAG 2.1 accessibility compliance, implementing fixes for alt text, color contrast, semantic HTML, and ARIA labels
- Analyzed Google Analytics and Hotjar data to identify user behavior patterns, informing content strategy that drove 132% Instagram engagement growth
- Built responsive email campaigns with mobile-first design and cross-client compatibility testing using drag-and-drop builders
- Partnered with development teams to troubleshoot technical issues, optimize digital assets, and align deliverables with brand standards
- Managed multi-platform content workflows (Hootsuite, Khoros, Firebase), monitoring KPIs and adjusting strategy based on performance metrics

### Program Coordinator & Digital Communications

Catonsville, MD

[Maryland Office of Suicide Prevention](#)

2020- 2022

- Developed digital resources and weekly newsletters for statewide prevention initiatives; audited materials for WCAG 2.1 accessibility compliance
- Collaborated with IT team to implement user feedback for site navigation improvements and coordinated accessible web-based trainings across coalition networks

## PROFILE

Frontend developer and content strategist who builds accessible, user-friendly web experiences that drive engagement and solve content management challenges for mission-driven organizations in healthcare and education.
